### HERE IS WHAT WE DO

- Design stunning websites
- Develop databased web programs
- Build management systems
- High quality graphics design
- Amazing photo manipulation
- Create flyers and brochures
- Full scale audio production
- Remote and on-site IT services

### BUSINESSES TRUST US

For over 10 years, companies have trusted us to use our well trained eye to produce an end product that achieves their exact vision. Of course we understand the decision to trust a design company is a tough one, as the wrong decision can cause many pieces of your company to go into a tailspin.

Don't hesitate to ask for a referral list of companies who have made a decision to trust us, we'd be happy to let you ask them about us.

### WHY YOU NEED iSTUDIO'S “AT YOUR SERVICE” PLAN

Employees cost you money. Not only hourly, but also fees associated with having an employee. These fees include insurance, government fees, vacation, office space, hardware, training, etc.

The “At Your Service” plans are meant for companies who do not have enough work to keep an employee busy, or have a fair amount of work but need a pro without paying large employee costs.

To hire a person who can offer all that iStudio offers, you would need to pay a massive salary. We have the resources to fill your need without having to hire employees. Tell us your needs and we'll tell you what it takes, work on a timeline based on your "At Your Service" plan, and get it done with impressive results.

### CHOOSE A PLAN FOR YOU

You will have us at your disposal for the number of weekly hours you will need us. If your needs are within the services we provide, then we'll do it.

The “At Your Service” plans available:

**5-Hours Weekly at \$50/hour**  
\$1,000/monthly (\$12,000/yearly)

**10-Hours Weekly at \$40/hour**  
\$1,600/monthly (\$19,200/yearly)

**20-Hours Weekly at \$30/hour**  
\$2,400/monthly (\$28,800/yearly)

Of course, if the “At Your Service” plans don't fit your need, we do have standard rates at \$90 hourly, which is exceptional for what we can do per hour of time.
